PHUC, BUI HUU

Fullstack Test Engineer | Automation QA Engineer

Ho Chi Minh City, Vietnam | +84 94 505 5293 | phucbui.workstation@gmail.com

PROFESSIONAL SUMMARY

Software QA Engineer with experience in manual testing, API validation, and automation testing for web and enterprise applications. Experienced in requirement analysis, test design, regression testing, SQL data verification, and automation development using Playwright. With a strong software development background, I collaborate effectively with developers to deliver reliable and high-quality software.

TECHNICAL SKILLS

Testing:

- **Manual:** Test design, regression, UI & workflow validation
- **Automation:** Playwright/Selenium, NUnit, JUnit

Business & Analysis: Requirement Gathering & Analysis, Test Planning & UAT Support, Stakeholder Communication
Program Language: TypeScript, C#, Java, SQL
Database: Oracle, MSSQL, MySQL
Tools: Swagger, GitHub, Postman, Azure DevOps, Mantis, Trello

PROFESSIONAL EXPERIENCE

S4BT Solutions for Business Travel - *QA Automation Engineer* 2026 - Present

S4BT (Solutions for Business Travel) is a European company building technology to simplify booking, managing, and paying for business travel.

- Contributed to the **Mobility team**, focusing on **multi-modal booking flows** (train, car, flight).
- **Analyzed requirements** and designed **test scenarios/test cases** to ensure coverage.
- Performed **manual testing** for **end-to-end** booking **workflows**.
- Validated transactions, confirmations, and booking receipts across systems.
- Conducted **API testing** and verified **data consistency** between services.
- Developed and maintained **automated test scripts** using **Playwright (TypeScript)** and **Selenium (C#)** for web applications.
- **Reported defects** and supported **UAT** to guarantee product quality and reliability.

Total Soft Bank Ltd. (TSB) - *Software QA Engineer* 2025 - 2026

TSB is a global leader in maritime and logistics software, delivering innovative solutions that enhance operational efficiency and safety, empowering businesses to manage complex operations seamlessly.

- **Gathered** and **analyzed business requirements**, translating them into **functional specifications** for developers.
- **Collaborated with developers** to propose **feasible technical solutions** and ensure proper implementation.
- **Coordinated test planning** and validated **system behavior** to guarantee full requirement coverage.
- **Tested** and **validated integrations** with **3 external systems** including VNPT Invoice, SAP ERP, and BRAVO**.**
- Participated in **UAT** and supported **issue resolution** to meet business expectations.

FPT Software Co., Ltd. - *Java Developer Intern*

- Participated in all phases of the **software development lifecycle**, from requirements gathering to deployment 2023 - 2023
- Developed **backend services** using **Java Spring Boot** and **RESTful APIs**.
- Designed and implemented RESTful API endpoints for data retrieval and user management, ensuring **high performance and low latency**.
- Ensured **code quality** through rigorous unit testing and code reviews.

EDUCATION

Bachelor in Software Engineering 2020 - 2024

FPT University

- Related Courses: Data Structures and Algorithms, OOP, Software Development Lifecycle, ...
- GPA: 7.6
